**Asbestos-Containing Materials in Schools**  
**Newtown High School**

Our building is inspected every 6 months as required by §19a-33-1 through 13 of the regulations of Connecticut State Agencies, "Asbestos-Containing Materials in Schools;" to determine any changes in the condition of identified asbestos-containing building materials. Additionally, the school will be re-inspected every three years by an accredited inspector following the same basic criteria as stated in the original plan.

The main office of each school and the Facilities office maintain a complete updated copy of the asbestos management plan which is available for viewing during normal business hours. The asbestos program coordinator is Gino Faiella who can be contacted at 203-426-7615 and our asbestos consultant is Mark Granville who can be reached at 203-856-3055.

We remind you that this notification is required by law and should not be construed to indicate the existence of any hazardous conditions in our school buildings.

Janet Robinson, Ph.D.  
Superintendent of Schools
